ACKNOWLEDGMENTS

The *LA Times Poll* has been given to the National Data Archive on Child Abuse and Neglect for public distribution by David Finkelhor, Family Violence Research Laboratory, University of New Hampshire. Funding to prepare the data for public use was provided by a grant from the National Center on Child Abuse and Neglect (90 - CA - 1370).

ABSTRACT

This opinion study was designed to determine the prevalence of childhood sexual abuse among a national sample of adult men and women and to identify characteristics of victims and risk factors associated with childhood sexual victimization. The sampling frame included all residential telephones in the United States. 2,629 men and women 18 years or older were contacted by telephone during an eight day period in July of 1985. Knowledge and attitudes about sexual abuse were ascertained and information was gathered about the respondents' personal life circumstances.

ACKNOWLEDGMENT OF ASSISTANCE

All manuscripts which use data made available through the National Data Archive on Child Abuse and Neglect should acknowledge that fact as well as identify the original collector of the data. Users of these data are urged to follow some adaptation of the following statement with the parentheses indicating items to be filled in appropriately or deleted by the individual user.

The data (and tabulations) utilized in this (publication) were made available (in part) by the National Data Archive on Child Abuse and Neglect, Cornell University, Ithaca New York. The data for the LOS ANGELES TIMES POLL were originally collected by I.A. Lewis. Funding support for preparing the data for public distribution was provided by a contract (90-CA-1370) between the National Center on Child Abuse and Neglect and Cornell University. Neither the collector of the original data, funding agency, nor the National Data Archive on Child Abuse and Neglect bears any responsibility for the analyses or interpretations presented here.

INFORMATION ABOUT THE USE OF ARCHIVAL RESOURCES

In order to provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about research activities among Archive participants, each user of these facilities is expected to send two copies of each completed manuscript, thesis abstract, or reprint to the National Data Archive on Child Abuse and Neglect, Cornell University, Family Life Development Center, MVR Hall, Ithaca, New York 14853.

I. GENERAL STUDY OVERVIEW

Purpose of the L.A. Times Poll Study

To determine the prevalence of childhood sexual abuse among a national sample of adult men and women and to identify characteristics of victims and risk factors associated with childhood sexual victimization.

Sampling /Selection Information

Conducted by the Los Angeles Times Poll in July 1985, this is the first national random sample survey in the United States to inquire about histories of sexual abuse. The sampling frame included all residential telephones in the United States. Two thousand six hundred twenty eight (2628) American men and women 18 years of age or older were contacted by telephone during the eight days ending July 27th, 1985. Phone numbers were randomly generated by computer to insure that both listed and unlisted households were properly included. The sample of 1145 men and 1481 women (2 cases were missing on sex) were questioned for approximately one-half hour on topics related to sexual abuse. Respondents were not identifiable to the researchers either by name or address. The sample conformed in all respects to census demographics for the United States as a whole and to demographics for other similar telephone surveys. The refusal rate for the survey was 24%.

Data Collection

A history of victimization was elicited through responses to four questions pertaining to different types of childhood sexual abuse: (1) someone trying to have or succeeding in having intercourse when the respondents were age 18 or under; (2) someone touching, grabbing, kissing, or rubbing up against them in a way they considered sexual abuse; (3) someone taking nude photographs, exhibiting parts of their body, or performing sex acts in their presence; or (4) someone perpetrating oral sex or sodomy against them.

For each question, respondents were asked to report only on those incidents they would now consider to be sexual abuse.

Replies were weighted to take account of household size and times at home and to adjust for variations in the sample relating to geographic residence, age, gender, employment, race, and education.

In 19 cases out of 20, results based on all the responses in a study such as this will have a sampling error of no more than three percentage points in either direction from what would have been obtained by interviewing every adult in the population in the same way.

Confidence limits for subgroups may, of course, be larger. For example, estimates based on the 585 respondents in the sample who said they were victims of child sexual abuse are accurate to within five percentage points in either direction.

Surveys of this kind are sometimes subject to other effects which are not associated with sampling procedures. Findings may be influenced by recent events or those which take place while the survey is being conducted. Changing the wording of questions and the sequence in which they are asked can produce different results. And people who respond to the survey may not necessarily replicate the views of those who refused to be interviewed or who could not be found at home during the time the survey was conducted. Moreover, while every precaution has been taken to make these findings completely accurate, other errors may have resulted from the various practical difficulties associated with taking any survey of public opinion, particularly for sensitive topics.

Measures

An interview instrument developed by the LA Times Poll ascertained knowledge and attitudes about sexual abuse and gathered information about the respondents' personal life circumstances. The instrument includes 101 forced choice items and resulted in the creation of 204 variables in the dataset. A copy of the instrument is appended to this Instruction Manual.

II. DESCRIPTION OF MACHINE-READABLE FILES

The National Data Archive on Child Abuse and Neglect (NDACAN) is able to distribute this data in a variety of ready to use file formats. Each data order comes on your choice of media (e.g., diskette, tape, etc.) with installation instructions. Please refer to the NDACAN order form or call us for more information.

NDACAN distributes one file for: **Los Angeles Times Poll**. A brief description of the data file is provided below. For information regarding variables, please see the individual codebook that goes with the data file in Appendix B: Codebook Information.

Data file name: LATIMES

This file contains 2,628 cases and 204 variables with variable names and labels corresponding to the codebook information.

Coding Conventions

A code of 931 was used when information pertaining to that item was MISSING. This is to be distinguished from information on an item that is not missing but is still unknown because of either a REFUSAL to respond to the question or a respondent being NOT SURE about how to answer the questions. The last category of an item for most variables on the instrument corresponds to the REFUSAL category, while the second to last category for most variables corresponds to the NOT SURE category. There is no need to recode these two categories for a given variable, since this has been already done in the SPSS-X file.

Classification of Sexual Abuse

The four screening questions mentioned above are more comprehensive than some that have been used in earlier surveys, but they also have some problems, in part because they allow for a partially undefined interpretation of sexual abuse. Experiences some researchers might define as abuse could be left out because the respondent did not consider them as abuse. Other experiences of a minor nature that many researchers would exclude could have been counted because of the respondent's broad interpretation of the phrase, "anything like that." Unfortunately, no subsequent questions were asked about the sexual acts that could have been used to exclude experiences that did not meet the researchers' criteria.

On the other hand, these screening questions are an improvement over surveys which asked only a single broad question about the history of abuse. Comparison among studies has shown that respondents disclose more experiences when they are given multiple opportunities to disclose and a variety of cues about the kinds of events researchers are interested in, as opposed to a single screening question.

Weighting

In most survey research the data in raw form (i.e., the unweighted data) do not accurately represent the characteristics of the population or sub populations of interest. Survey weights weight the data to reflect the probability of selection of cases in the data file. The weighted data instead of the unweighted data should be used to make the appropriate statistical inferences. Unlike the unweighted data, the weighted data eliminate the potential for bias in the analyses, permit reliable estimates of population and sub population parameters from the sample, and permit accurate quantification of sampling errors.

In the L.A. Times study the data should be weighted to take account of household size and times at home. In this study, though, there is only a slight difference in the numbers between the weighted and unweighted data, but enough of a difference for users to prefer using the weighted data over the unweighted data.

The weighting variable in this study is labeled as WTSVAR, which takes into account household size and times at home. Based on the set of four questions intended to determine whether or not a respondent was a victim of childhood sexual abuse, the variable VICTIMS dichotomizes between victims and non victims of childhood sexual abuse. The variable ABUSE2 distinguishes victims and non victims by sex.

As an example, the following SPSS-X program (with ddname of LATIMES) gives a weighted and unweighted analysis for the cross-tabulation of ABUSE2 and sex of abuser (VSEX):

```
GET FILE=LATIMES
CROSSTABS TABLES = VSEX BY ABUSE2
OPTIONS 3 4
WEIGHT BY WTSVAR
CROSSTABS TABLES = VSEX BY ABUSE2
OPTIONS 3 and 4
```

Below is a sample from the output of this program.

Key: Count
Row Pct.
Column Pct.

VSEX	ABUSE2		Row Total
	male victim	female victim	
male	137 25.4 84.0	403 74.6 98.1	540 94.1
female	26 76.5 16.0	8 23.5 1.9	34 5.9
Column Total	163 28.4	411 71.6	574 100.0

Below is a sample from the output for the weighted data, which also appears as part of Table 3 in Finkehlhor et al. (1989).

Key: Count
Row Pct.
Column Pct.

VSEX	ABUSE2		Row Total
	male victim	female victim	
male	158 30.0 82.9	367 70.0 98.4	525 93.2
female	33 84.9 17.1	6 15.1 1.6	38 6.8
Column Total	190 33.8	373 66.2	563 100.0

Hence both men and women reported that most of their abuse was perpetrated by men: 83% of the offenders against boys and 98% of the offenders against girls.

One of the topics we want to discuss in this public opinion survey is child molestation: the sexual abuse of children. Many years ago, people used to feel that such a subject was a private matter that never should be talked about. But most people these days don't have much difficulty talking about things like that — especially because of the importance of the subject and the lack of accurate information about it.

31. How about yourself? Is the subject of child sexual abuse the kind of thing you would have great difficulty talking about, or some difficulty, or little difficulty, or would you say that the subject of child sexual abuse is the kind of thing you would have hardly any difficulty talking about?

(READ TO PEOPLE WHO SAY THEY WOULD HAVE GREAT DIFFICULTY TALKING ABOUT CHILD SEXUAL ABUSE)

Well, as I say, many people have been concerned in recent years about the problem of children being molested — child sexual abuse. They want to know how widespread it is, what are the most frequent kinds of abuse, and what is the best way to protect children from it. In order to help, one of the things we are trying to do in this study is to find out from people whom we have chosen at random what they think about child sexual abuse so we can find out the true facts instead of rumor and gossip.

Naturally, because this is a sensitive subject and concerns sex, some questions on this topic may seem awkward or personal. People might feel that some questions put them on the spot because they ask about subjects they have not given thought to or about things they no longer remember.

Please remember that your answers are completely anonymous and you do not have to answer any question if you don't want to.

Let's try the first one and see how it goes.
(ASKED OF EVERYONE)

32. Do you think that the laws we have on the books are adequate to deal with the problem of sexual abuse, or not?

1. YES, LAWS ARE ADEQUATE
2. NO, LAWS ARE NOT ADEQUATE
3. NOT SURE
4. REFUSED

1/63

33. Do you think that people who work with children — like camp counselors, babysitters or scout leaders — should be required to be licensed and have their fingerprints checked, or do you think that isn't necessary?

1. YES, LICENSES AND FINGERPRINTS
2. NO, NOT NECESSARY
3. NOT SURE
4. REFUSED

1/64

34. At any time during the last month, did you happen to talk to anyone or read anything about the subject of child sexual abuse, or not?

1. YES, TALKED OR READ
2. NO, DIDN'T TALK OR READ ABOUT
3. NOT SURE
4. REFUSED

1/65

35. Has all the talk about child sexual abuse nowadays made you change the way you treat children? For example, do you find that you are less likely to want to be alone with other people's children, or to offer to babysit, or don't you hug children as much as you used to, or are you careful how you hold children, or are you less likely to help a lost child, or to smile at children you don't know? Have any of those things happened to you — or other things similar to that?

1. YES, THINGS LIKE THAT HAVE HAPPENED
2. NO, THINGS LIKE THAT HAVE NOT HAPPENED
3. NOT SURE
4. REFUSED

1/66

36. Why do you think there have been so many stories in the news lately about child abuse? Do you think there are more people who are willing to talk publicly about child abuse today than there used to be, or do you think the news media are covering more stories about child abuse today than they used to, or do you think that there is more child abuse going on today than there used to be?

- 1. MORE PEOPLE TALKING
- 2. MORE MEDIA COVERING
- 3. MORE PEOPLE ABUSING
- 4. NOT SURE
- 5. REFUSED

1/67

37. Have you heard or read anything about the cases of alleged child sexual abuse at the McMartin Pre-School in Manhattan Beach, California, or not? (IF YES) Generally speaking, are you very satisfied with the way the McMartin Pre-School case has been handled so far by the authorities, or somewhat satisfied, or somewhat dissatisfied, or very dissatisfied with the way the case has been handled so far by the authorities?

- 0. NOT AWARE (SKIP TO Q. 39)
- 1. VERY SATISFIED
- 2. SOMEWHAT SATISFIED
- 3. SOMEWHAT DISSATISFIED
- 4. VERY DISSATISFIED
- 5. NOT SURE (SKIP TO Q. 39)
- 6. REFUSED (SKIP TO Q. 39)

1/68

38. Do you think that most of the children involved in the McMartin cases were sexually abused, or some of them were, or a few were, or do you think that none of the McMartin children were sexually abused?

- 1. MOST
- 2. SOME
- 3. FEW
- 4. NONE
- 5. NOT SURE
- 6. REFUSED

1/69

39. Sometimes in cases of childhood sexual abuse, innocent people are tried for crimes they did not commit. Other times, guilty people are never brought to trial. In your opinion, which of these two situations worries you the most?

- 1. CRIMES THEY DID NOT COMMIT
- 2. BOTH EQUALLY (VOLUNTEERED)
- 3. GUILTY ARE NEVER BROUGHT TO TRIAL
- 4. NOT SURE
- 5. REFUSED

1/70

40. When children testify in court about sexual attacks, which do you think is more important: that the child who is testifying be protected from psychological damage, or that the legal rights of the defendant be protected?

- 1. PROTECT THE CHILD
- 2. BOTH EQUALLY (VOLUNTEERED)
- 3. PROTECT THE DEFENDANT
- 4. NOT SURE
- 5. REFUSED

1/71

41. Do you feel that children who are less than thirteen years old can reliably describe things that happened to them years before, or not? (WAIT FOR REPLY) Are you very certain about that or somewhat certain?

- 1. VERY CERTAIN THEY CAN
- 2. SOMEWHAT CERTAIN THEY CAN
- 3. SOMEWHAT CERTAIN THEY CANNOT
- 4. VERY CERTAIN THEY CANNOT
- 5. NOT SURE
- 6. REFUSED

1/72

42. One of the things we're interested in knowing is exactly how you would define "child sexual abuse." Would you say that sexual abuse has taken place *only* when a sexual act has been completed or would you say that sexual abuse has taken place *even* when a sexual act has been attempted but never completed?

- 1. ONLY WHEN IT HAS BEEN COMPLETED
- 2. EVEN WHEN ATTEMPTED BUT NEVER COMPLETED
- 3. NOT SURE
- 4. REFUSED

1/73

Here are some more questions to find out exactly how you would define "child sexual abuse." For example:

43. Suppose a fourteen-year-old boy was seduced by a fourteen-year-old girl. Would you consider that an example of child sexual abuse, or an example of something else? (IF SOMETHING ELSE) Suppose the fourteen-year-old boy was seduced by an eighteen-year-old girl. Would you consider that an example of child sexual abuse, or an example of something else? (IF SOMETHING ELSE) Suppose the fourteen-year-old boy was seduced by a twenty-two-year-old woman. Would you consider that an example of child sexual abuse, or an example of something else?

- 1. YES, 14-YR-OLD GIRL ABUSED BOY
- 2. YES, 18-YR-OLD GIRL ABUSED BOY
- 3. YES, 22-YR-OLD WOMAN ABUSED BOY
- 4. NO, ALL ARE EXAMPLES OF SOMETHING ELSE
- 5. NOT SURE
- 6. REFUSED

1/74

Here's another example:

44. Suppose a fourteen-year-old girl was seduced by a fourteen-year-old boy. Would you consider that an example of child sexual abuse, or an example of something else? (IF SOMETHING ELSE) Suppose the fourteen-year-old girl was seduced by an eighteen-year-old boy. Would you consider that an example of child sexual abuse, or an example of something else? (IF SOMETHING ELSE) Suppose the fourteen-year-old girl was seduced by a twenty-two-year-old man. Would you consider that an example of child sexual abuse, or an example of something else?

1. YES, 14-YR-OLD BOY ABUSED GIRL
2. YES, 18-YR-OLD BOY ABUSED GIRL
3. YES, 22-YR-OLD MAN ABUSED GIRL
4. NO, ALL ARE EXAMPLES OF SOMETHING ELSE
5. NOT SURE

45. Suppose a fourteen year-old boy used physical force to have sexual relations with a fourteen-year-old girl. Would you consider that an example of child sexual abuse, or an example of something else?

1. YES, IT WAS CHILD SEXUAL ABUSE
2. NO, IT WAS NOT CHILD SEXUAL ABUSE
3. NOT SURE
4. REFUSED

1/76

46. Now, let's suppose a fourteen-year-old girl seduced a twenty-four-year-old man into having sexual relations with her. Would you consider that an example of child sexual abuse, or an example of something else?

1. YES, IT WAS CHILD SEXUAL ABUSE
2. NO, IT WAS NOT CHILD SEXUAL ABUSE
3. NOT SURE
4. REFUSED

1/77

47. Suppose a fourteen-year-old girl *consented* to having sexual relations with a twenty-four-year old man. Would you consider that an example of child sexual abuse, or an example of something else?

100. Every once in a while we have a few questions that are difficult to ask directly because some people think they are too personal ... and while it's understandable that people might feel that way, the information is important. Fortunately, we now have a way for people to give us this information without revealing anything at all about their own personal situation.

Do you happen to have a coin handy? I'll be happy to wait while you go get one. (IF NO COIN) Well, do you happen to have a dollar bill, then? That will do just as well.

Now, let me show you how this works, using my next two questions as examples. One of the questions is personal and the other is not ... and both of them can be answered "yes" or "no."

Here's the first question: "Do you rent the place where you live, or not?" and the second question is: "Have you ever sexually abused a child at any time in your life, or not?"

(IF COIN) All right, please flip the coin and *don't tell me if it comes up heads or tails.* (IF RESPONDENT TELLS YOU RESULT, MAKE HIM/HER DO IT AGAIN WITHOUT TELLING YOU) Now, if it is heads, you must answer the first question about rent, and if it is tails, you must answer the second question.

(IF PAPER MONEY) All right, please look at the serial number on the dollar bill and *don't tell me what the number is.* (IF RESPONDENT TELLS YOU SERIAL NUMBER, MAKE HIM/HER GET ANOTHER BILL AND DO IT AGAIN WITHOUT TELLING YOU) Now, if the last digit is odd, you must answer the first question about rent, and if the last digit is even, you must answer the second question.

Now, think about which question you are supposed to answer, the first one "Do you rent the place where you live, or not?" or the second one "Have you ever sexually abused a child at any time in your life, or not?" Now, answer simply "yes" or "no" and don't tell me whether (the coin was heads or tails/the bill was odd or even) or which question you are answering. Remember that whichever question you answer will be selected completely by chance and I will only know the answer but not which question you are answering. I could repeat those questions, if you wish.

1. YES
2. NO
3. REFUSED

(ASKED OF RESPONDENTS IN SAMPLE 2, THOSE WHOSE TELEPHONE NUMNERS END IN 2, 4, 6, 8, or 0)

101. Every once in a while we have a few questions that are difficult to ask directly because some people think they are too personal ... and while it's understandable that people might feel that way, the information is important. Fortunately, we now have a way for people to give us this information without revealing anything about their own personal situation.

Do you happen to have a coin handy? I'll be happy to wait while you go get one. (IF NO COIN) Well, do you happen to have a dollar bill, then? That will do just as well.

Now, let me show you how this works, using my next two questions as examples. One of the questions is personal and the other is not ... and both of them can be answered "yes" or "no."

Here's the first question: "Are you a member of a labor union or a teachers' organization, or not?" The second question is: "Have you ever sexually abused a child at any time in your life, or not?"

(IF COIN) All right, please flip the coin and *don't tell me if it comes up heads or tails*. (IF RESPONDENT TELLS YOU RESULT, MAKE HIM/HER DO IT AGAIN WITHOUT TELLING YOU) Now, if it is heads, you must answer the first question about union membership, and if it is tails, you must answer the second question.

(IF PAPER MONEY) All right, please look at the serial number on the dollar bill and *don't tell me what the number is*. (IF RESPONDENT TELLS YOU SERIAL NUMBER, MAKE HIM/HER GET ANOTHER BILL, AND DO IT AGAIN WITHOUT TELLING YOU) Now, if the last digit is odd, you must answer the first question about union membership, and if the last digit is even, you must answer the second question.

Now, think about which question you are supposed to answer, the first one "Are you a member of a labor union or a teachers' organization, or not?" or the second one "Have you ever sexually abused a child at any time in your life, or not?" Now, answer simply "yes" or "no" and don't tell me whether (the coin was heads or tails/the bill was odd or even) or which question you are answering. Remember that whichever question you answer will be selected completely by chance and I will only know the answer but not which question you are answering. 31. ONE OF THE TOPICS WE WANT TO DISCUSS IN THIS PUBLIC OPINION SURVEY IS CHILD MOLESTATION; THE SEXUAL ABUSE OF CHILDREN, MANY YEARS AGO, PEOPLE USED TO FEEL THAT SUCH A SUBJECT WAS A PRIVATE MATTER THAT NEVER SHOULD BE TALKED ABOUT, BUT MOST PEOPLE THESE DAYS DON'T HAVE MUCH DIFFICULTY TALKING ABOUT THINGS LIKE THAT -- ESPECIALLY BECAUSE OF THE IMPORTANCE OF THE SUBJECT AND THE LACK OF ACCURATE INFORMATION ABOUT IT, HOW ABOUT YOURSELF? IS THE SUBJECT OF CHILD SEXUAL ABUSE THE KIND OF THING YOU WOULD HAVE GREAT DIFFICULTY TALKING ABOUT, OR SOME DIFFICULTY, OR LITTLE DIFFICULTY, OR WOULD YOU SAY THAT THE SUBJECT OF CHILD SEXUAL ABUSE IS THE KIND OF THING YOU WOULD HAVE HARDLY ANY DIFFICULTY TALKING ABOUT?

32. (READ TO PEOPLE WHO SAY THEY WOULD HAVE GREAT DIFFICULTY TALKING ABOUT CHILD SEXUAL ABUSE)

WELL, AS I SAY, MANY PEOPLE HAVE BEEN CONCERNED IN RECENT YEARS ABOUT THE PROBLEM OF CHILDREN BEING MOLESTED -- CHILD SEXUAL ABUSE, THEY WANT TO KNOW HOW WIDESPREAD IT IS, WHAT ARE THE MOST FREQUENT KINDS OF ABUSE, AND WHAT IS THE BEST WAY TO PROTECT CHILDREN FROM IT, IN ORDER TO HELP, ONE OF THE THINGS WE ARE TRYING TO DO IN THIS STUDY IS TO FIND OUT FROM PEOPLE WHOM WE HAVE CHOSEN AT RANDOM WHAT THEY THINK ABOUT CHILD SEXUAL ABUSE SO WE CAN FIND OUT THE TRUE FACTS INSTEAD OF RUMOR AND GOSSIP.

NATURALLY, BECAUSE THIS IS A SENSITIVE SUBJECT AND CONCERNS SEX, SOME QUESTIONS ON THIS TOPIC MAY SEEM AWKWARD OR PERSONAL, PEOPLE MIGHT FEEL THAT SOME QUESTIONS PUT THEM ON THE SPOT BECAUSE THEY ASK ABOUT SUBJECTS THEY HAVE NOT GIVEN THOUGHT TO OR ABOUT THINGS THEY NO LONGER REMEMBER.

PLEASE REMEMBER THAT YOUR ANSWERS ARE COMPLETELY ANONYMOUS AND YOU DO NOT HAVE TO ANSWER ANY QUESTIONS IF YOU DON'T WANT TO.

LET'S TRY THE FIRST ONE AND SEE HOW IT GOES.

(ASKED OF EVERYONE)

DO YOU THINK THAT THE LAWS WE HAVE ON THE BOOKS ARE ADEQUATE TO DEAL WITH THE PROBLEMS OF SEXUAL ABUSE, OR NOT?

71. WHAT DO YOU THINK IS THE MOST IMPORTANT REASON WHY CHILDREN SUBMIT TO SEXUAL ABUSE? GENERALLY SPEAKING, DO YOU THINK IT IS BECAUSE THEY ARE AFRAID OF WHAT WILL HAPPEN IF THEY REFUSE, OR BECAUSE CANDY, MONEY OR JEWELRY IS OFFERED, OR BECAUSE PHYSICAL FORCE IS USED, OR BECAUSE VICTIMS FEEL THERE IS NO ONE THEY CAN TURN TO FOR HELP OR ADVICE, OR BECAUSE THE CHILD WANTS TO KEEP THE MOLESTER'S LOVE, OR BECAUSE THE CHILD FEELS THE ABUSER IS POWERFUL AND MUST BE OBEYED, OR BECAUSE THE VICTIM DOESN'T WANT TO MAKE TROUBLE FOR THE MOLESTER, OR BECAUSE THE CHILD IS TOLD IT ISN'T WRONG, OR WHAT? I COULD REPEAT THOSE, IF YOU WISH, IS THERE ANOTHER IMPORTANT REASON WHY CHILDREN SUBMIT TO SEXUAL ABUSE?

72. WHAT DO YOU THINK IS THE MOST IMPORTANT THING THAT WE OUGHT TO DO ABOUT CHILD SEXUAL ABUSE -- WHAT WOULD HELP THE MOST? DO YOU THINK THERE SHOULD BE A GREATER CHURCH INVOLVEMENT, OR DO YOU THINK WE SHOULD HAVE WIDER PUBLIC EDUCATION ON THE SUBJECT, OR DO YOU THINK WE SHOULD TAKE STEPS TO STRENGTHEN THE FAMILY, OR SHOULD THERE BE STRICTER CONTROL OVER THE MEDIA, OR LESS PERMISSIVENESS IN SOCIETY, OR DO YOU THINK THE POLICE SHOULD PAY MORE ATTENTION TO CHILD SEXUAL ABUSE, OR SHOULD THERE BE MORE PUBLIC AGENCIES TO HANDLE THE PROBLEM, OR SHOULD THERE BE HEAVIER PUNISHMENT FOR CHILD SEXUAL ABUSERS, OR DO YOU THINK THERE SHOULD BE MORE PSYCHIATRIC THERAPY AVAILABLE, OR WHAT? 99. WHAT DO YOU THINK IS THE MAIN REASON WHY THIS PERSON ABUSED YOU SEXUALLY? DO YOU THINK IT WAS BECAUSE (HE/SHE) WAS AN ALCHOLIC, OR WAS TOO STIMULATED BY BOOKS AND MAGAZINES, OR WAS TOO HIGHLY SEXED, OR DIDN'T GET ENOUGH SEX FROM (HIS/HER) PARTNER, OR FELT ISOLATED AND LONELY, OR WAS HOMOSEXUAL, OR WAS MENTALLY ILL, OR SENILE, OR BECAUSE (HE/SHE) DIDN'T BELIEVE IT WAS WRONG, OR WHAT? I COULD REPEAT THOSE, IF YOU WISH, IS THERE ANOTHER IMPORTANT REASON WHY YOU THINK THIS PERSON ABUSED YOU SEXUALLY?

99. WHEN YOU THINK ABOUT IT NOW, WHAT DO YOU THINK IS THE MOST IMPORTANT REASON WHY IT HAPPENED? WAS IT BECAUSE YOU WERE AFRAID OF WHAT WOULD HAPPEN IF YOU REFUSED, OR BECAUSE CANDY, MONEY OR JEWELRY WAS OFFERED, OR BECAUSE YOU WANTED TO KEEP (HIS/HER) LOVE, OR BECAUSE (HE/SHE) WAS POWERFUL AND MUST BE OBEYED, OR BECAUSE YOU DIDN'T WANT TO MAKE TROUBLE FOR (HIM/HER), OR BECAUSE YOU WERE TOLD IT WASN'T WRONG, OR WHAT? I COULD REPEAT THOSE, IF YOU WISH, IS THERE ANOTHER IMPORTANT REASON WHY IT HAPPENED?
