NDACAN PRODUCTS AND SERVICES

DISSEMINATION OF DATASETS AND TECHNICAL SUPPORT

NDACAN acquires and distributes datasets to eligible faculty and staff at research centers having an Institutional Review Board (IRB) recognized by the U.S. Office for Human Research Protections. NDACAN distributes data files free of charge and provides free technical support to data users.

CALL FOR DATA CONTRUBTIONS

Principal investigators are encouraged to consider archiving their quantitative child well-being data with NDACAN. The benefits of data sharing include preserving the original data with accessible documentation, maximizing the utility of your research through replication and extension by new researchers, and increasing the potential number of author citations. Visit our website for instructions on how to contribute data.

CMRL LIST SERVE FOR CHILD MALTREATMENT RESEARCHERS

NDACAN runs a moderated email list serve called the Child Maltreatment Research List (CMRL). The scope of the discussion includes all areas of child abuse and neglect research (e.g., epidemiology, etiology, measurement, instrumentation, statistical analysis, ethics). To join the CMRL, please visit our website.

SUMMER RESEARCH INSTITUTE

The Summer Research Institute (SRI) is an annual on-line workshop for secondary data analysis of NDACAN datasets to facilitate the publication of research findings in the academic literature. Participants are selected on a competitive basis from a wide variety of disciplines. The call for applications is posted on our website, Twitter feed, and sent to our mailing list.

SUMMER TRAINING WEBINAR SERIES

NDACAN holds an annual Summer Webinar Training Series on data analysis of datasets that have rich research potential. Past webinars have focused on data management, applied data analysis workshops, and on linking the AFCARS, NYTD, and NCANDS Child File datasets. All of the Summer Training Webinar Series videos and slides are posted on-line.

ON-LINE CITATIONS DATABASE

NDACAN maintains a citations database called the child abuse and neglect Digital Library (canDL), which lists publications related to datasets archived at NDACAN. See the Publications section of the NDACAN website for the candDL instructions and link.

NDACAN WEBSITE AND NEWSLETTER

The NDACAN website contains our list of holdings with free dataset documentation, ordering instructions, and user support information. On the website, researchers can join our mailing list to receive our *NDACAN Updata* e-newsletter and program announcements.

SPECIAL DATA REQUESTS

Researchers without the resources to order and/or analyze NDACAN datasets may submit a Special Data Request (SDR) for our statisticians to perform ad hoc analysis on their behalf. These requests must meet certain criteria, including that they do not threaten data confidentially (e.g., no small counts). There is no cost for this service. Please visit our website for instructions on how to submit a request.

National Data Archive on Child Abuse and Neglect

The National Data Archive on Child Abuse and Neglect (NDACAN) facilitates the secondary analysis of research data relevant to the study of child abuse and neglect. NDACAN acquires, preserves, and disseminates data for qualified researchers to explore important issues in child maltreatment. NDACAN supports analysis of its datasets by providing technical support, workshops, and researcher networking.

Funding for NDACAN is provided by the Children's Bureau, an office of the Administration for Children and Families (ACF), Department of Health and Human Services (HHS).
