PREFACE

The year 2009 data for the *Adoption and Foster Care Analysis and Reporting System (AFCARS)* have been given to the National Data Archive on Child Abuse and Neglect for public distribution by the Children's Bureau. Funding for the project was provided by the Children's Bureau, Administration on Children, Youth and Families, Administration for Children and Families, U.S. Department of Health and Human Services. This user's guide supplement orients the user to the AFCARS Adoption data for the year 2009, and should not be confused with the supplements detailing AFCARS data from earlier releases.

ACKNOWLEDGEMENT OF SOURCE

Authors should acknowledge the National Data Archive on Child Abuse and Neglect and the original collector of the data when they publish manuscripts that use data provided by NDACAN. Users of these data are urged to follow some adaptation of the statement below.

The data used in this publication were made available by the National Data Archive on Child Abuse and Neglect, Cornell University, Ithaca, NY, and have been used with permission. Data from the *Adoption and Foster Care Analysis and Reporting System (AFCARS)* were originally collected by the Children's Bureau. Funding for the project was provided by the Children's Bureau, Administration on Children, Youth and Families, Administration for Children and Families, U.S. Department of Health and Human Services. The collector of the original data, the funder, NDACAN, Cornell University and their agents or employees bear no responsibility for the analyses or interpretations presented here.

PUBLICATIONS SUBMISSION REQUIREMENTS

In accordance with the *Terms of Use Agreement* for these datasets, users of these data are required to deposit a copy of any published work or report based wholly or in part on these data with NDACAN. A copy of any completed manuscript, thesis abstract, or reprint should be sent to the National Data Archive on Child Abuse and Neglect, Cornell University, Family Life Development Center, Beebe Hall, Ithaca, New York 14853. Such copies will be used to provide funding agencies with essential information about the use of NDACAN resources and to facilitate the exchange of information about research activities among data users and contributors.

PURPOSE OF THE 2009 USER'S GUIDE SUPPLEMENT

The *AFCARS User's Guide Annual Supplement, 2009* is intended for use with the *Adoption and Foster Care Analysis and Reporting System (AFCARS) User's Guide and Codebook*. The *User's Guide* contains a general overview of the AFCARS project and detailed descriptions of the variables contained in the adoption and foster care files. This *Supplement* contains information specific to the 2009 AFCARS *Adoption* dataset, *Ad2009v1*. This document contains

- a table specifying which states submitted data in the years 1995 through 2009
- a count of the number of records submitted by each state for the 2009 files
- counts of the number of non-missing values for each variable in the 2009 files
- explanatory footnotes provided by the states

PART 2

AFCARS

ADOPTION DATABASE

HISTORY OF STATE ADOPTION SUBMISSIONS TO AFCARS

By AFCARS regulation, states were required to submit AFCARS data beginning in 1995; it was not until 1998, however, that penalties established by the same regulation became applicable. Data submitted prior to 1998 were often incomplete. The table below indicates the years in which individual states submitted adoption data. Please note that a black dot in a cell does not imply that a state's data file was complete; some state files contained very few records. The number of records in each state's files is contained in the *State Records Counts Table* for the year. 1999 was the first year that all states (including Puerto Rico and the District of Columbia) submitted data. Since then, all states have submitted data each year.

2009 ADOPTION UNDUPPLICATED RECORD COUNTS

States submit data to AFCARS twice a year; the first reporting period ends April 30 and the second September 30. Prior to each annual release, the Children's Bureau combines submissions for the two reporting periods and removes duplicate records. The table that follows lists the number of records contained in the unduplicated annual 2009 files by state.

2009 v1 ADOPTION VARIABLE COUNTS BY STATE

The first column in the following table contains the names of the variables in the Adoption file. Please refer to the *AFCARS User's Guide and Codebook* for more information about specific variables. Subsequent columns contain the number of records with non-missing values for the variable in the state identified in the column heading. A complete set of a state's variables spans three pages. The first row in the set indicates the total number of records for the state. Reviewing the table before attempting an AFCARS analysis can be useful for identifying which states cannot provide data for a particular variable.

2009 ADOPTION STATE FOOTNOTES

States are encouraged, but not required, to provide explanatory footnotes along with their data submissions. The footnotes allow states to provide additional information they consider necessary for proper interpretation of their data. The footnotes may include such information as:

- general characteristics of the state's Adoption system
- characteristics of the population, including whether certain types of placements are included
- state definitions that differ from federal AFCARS definitions.

Footnotes for the 2009 versions of the Adoption data follow, sorted by element number and state. General state footnotes that are not specific to an element or period are given an element number of 00.

NDACAN strongly recommends that users review the 2009 footnotes that follow before attempting to analyze the AFCARS Adoption data.

FY2009 Adoption Footnotes

| Element | State | Note |
|----------------|--------------|---|
| A00 | Georgia | This is a re-submission of the Adoption File to clear up duplicates that were discovered in the population. |
| A00 | Georgia | The State of Georgia recently converted to Georgia SHINES for the management of Adoptions data. As a result cases managers are still becoming familiar with documenting adoptive home placements. |
| A00 | Utah | There are a total of 18 adoption maintenance cases that did not come from FC cases. |
| A00 | Utah | There are a total of 14 adoption maintenance cases that did not come from FC cases. |
| A03 | Florida | SYSTEM GENERATED AFCARS ID NUMBER IS ENCRYPTED. |
| A03 | Iowa | Record numbers are encrypted in data submission. |
| A03 | Nebraska | THE ADOPTION RECORD NUMBER IS A UNIQUE NUMBER FOR CHILD WHICH HAS BEEN ENCRYPTED. |
| A04 | Iowa | The extract does not reflect private adoptions. |
| A04 | Washington | Washington's conversion to a new SACWIS system resulted in adoption finalization legal records being populated on duplicate cases for some records. The result will be duplicate reports of adoptions for an estimated 100 children in the 2009 |
