PREFACE

The data for *Neglect and the Family First Prevention Act* have been given to the National Data Archive on Child Abuse and Neglect (NDACAN) for public distribution by Tola Seng, Holly White-Wolfe, Kristcha De Guerre, and Katharine Briar-Lawson.

ACKNOWLEDGEMENT OF SOURCE

Authors should acknowledge the National Data Archive on Child Abuse and Neglect (NDACAN) and the original collector(s) of the data when publishing manuscripts that use data provided by the Archive. Users of these data are urged to follow some adaptation of the statement below.

The data used in this publication were made available by the National Data Archive on Child Abuse and Neglect, Cornell University, Ithaca, NY, and have been used with permission. Data from *Neglect and the Family First Prevention Act* were originally collected by: Tola Seng, Holly White-Wolfe, Kristcha De Guerre and Katharine Briar-Lawson. The collector(s) of the original data, the funder(s), NDACAN, Duke University, Cornell University and their agents or employees bear no responsibility for the analyses or interpretations presented here.

The bibliographic citation for this data collection is:

PUBLICATION SUBMISSION REQUIREMENT

In accordance with the terms of the *Data License* for this dataset, users of these data are required to notify the National Data Archive on Child Abuse and Neglect of any published work or report based wholly or in part on these data. A copy of any completed manuscript, thesis abstract, or reprint should be emailed to NDACANsupport@cornell.edu. Such copies will be used to provide our funding agency with essential information about the use of NDACAN resources and to facilitate the exchange of information about research activities among data users and contributors.

Variables in Neglect and Prevention Policy (NAPP) Data

Neglect statute data

Number of observations: 51

Number of variables: 13

Organization of data set: One row per state plus DC

Variable Name	Label	Values	Frequency Category	Frequency	Percent
