## PURPOSE OF THE 2013 USER'S GUIDE SUPPLEMENT

The AFCARS User's Guide Annual Supplement, 2013 is intended for use with the Adoption and Foster Care Analysis and Reporting System (AFCARS) User's Guide and Codebook. The User's Guide contains a general overview of the AFCARS project and detailed descriptions of the variables contained in the adoption and foster care files. This Supplement contains information specific to the 2013 AFCARS Foster Care dataset, FC2013v1. This document contains:

- a table specifying which states submitted data in the years 1995 through 2013
- a count of the number of records submitted by each state for the 2013 v1 files
- a listing of the geographic FIPS codes for counties that had 1000 or more cases in the 2013 v1 foster care dataset
- explanatory footnotes provided by the states

## HISTORY OF STATE FOSTER CARE SUBMISSIONS TO AFCARS

By AFCARS regulation, states were required to submit AFCARS data beginning in 1995. It was not until 1998, however, that penalties established by the same regulation became applicable. Data submitted prior to 1998 were often incomplete. The table below indicates the years in which individual states submitted data. Please note that a black dot in a cell below does not imply that a state's data file was complete; some state files contained very few records. The number of records in each state's files is contained in the *State Records Counts Table* for the year. 2001 was the first year that all states (including Puerto Rico and the District of Columbia) submitted data. Since then, all states have submitted data each year.

## 2013 FOSTER CARE UNDUPLICATED RECORD COUNTS

States submit data to AFCARS twice a year; the first reporting period ends April 30 and the second September 30. Prior to each annual release, the Children's Bureau combines submissions for the two reporting periods and removes duplicate records. The table that follows lists the number of records contained in the unduplicated annual 2013 files by state. Counts that do not match the previous version are highlighted.

## 2013 FOSTER CARE STATE FOOTNOTES

States are encouraged, but not required, to provide explanatory footnotes along with their data submissions. The footnotes allow states to provide additional information they consider necessary for proper interpretation of their data. The footnotes may include such information as:

- general characteristics of the state's foster care system
- characteristics of the population, including whether certain types of placements are included
- state definitions that differ from federal AFCARS definitions.

Footnotes for the 2013 versions of the foster care data follow, sorted by element number and state. General state footnotes that are not specific to an element or period are given an element number of 00.

**NDACAN strongly recommends that users review the 2013 footnotes that follow before attempting to analyze the AFCARS Foster Care data.**
